GUIDE TO LABELLING FOOD PRODUCTS AT THE LOCAL FOOD MARKETS

This is a general guide to assist vendors who are selling their packaged products at a local food market (farmers’ market). It is the responsibility of the vendor to adhere to laws surrounding food labelling and advertising. The information from the NOTES section below is an excerpt from the Canadian Food Inspection Agency’s Guide to Food Labelling and Advertising. Please contact the Canadian Food Inspection Agency for further information or refer to the Guide for more details.

LABELS MUST INCLUDE:

1. Product Name / Common Name
2. Net quantity,
3. Vendor name and address,
4. List of ingredients (including food allergens),
5. Durable life date, and
6. Nutritional Facts Table *optional

All prepackaged products require a label with the following exceptions:
- One-bite confections, such as a candy or a stick of chewing gum, sold individually; and
- Fresh fruits or vegetables packaged in a wrapper or confining band of less than 1/2 inch (12.7 mm).

NOTES:

1. Product Name/ Common Name
   This is the name of your product. When a prescribed common name for a food is used, the product must meet the compositional standard established for the food by the applicable regulation. Conversely, when a food meets a prescribed compositional standard, the prescribed common name, when there is one, must be used.

2. Net Quantity
   In general, the net quantity must be indicated:
   - By volume for liquids; e.g., milliliters, or litres (for amounts more than 1000 ml);
   - By weight for solids; e.g., grams, or kilograms (for amounts more than 1000 g); or
   - By count for certain foods, such as candied apples.

3. Vendor Name and Address
   The name and address of the responsible party by or for whom a prepackaged product is manufactured or produced, must be declared on any part of the food container except the bottom

4. List of Ingredients
   In general, ingredients must be listed in descending order of proportion by weight, as determined before they are combined to make the food. The exceptions are spices, seasonings and herbs (except salt), natural and artificial flavours, flavour enhancers, food additives, and vitamin and mineral nutrients and their derivatives or salts, which may be shown at the end of the ingredient list in any order.

5. Durable Life Date
   "Durable life" is the period, starting on the day a food is packaged for retail sale, that the food will retain its normal wholesomeness, palatability and nutritional value, when it is stored under conditions appropriate for that product.
   A durable life date ("best-before" date) is required on prepackaged foods with a durable life of 90 days or less.

6. Nutritional Facts (*optional for items sold at farmers’ markets)
   Please see the Canadian Food Inspection Agency’s Guide to Food Labelling and Advertising for more information.
EXAMPLE 1: GENERAL PREPACKAGED FOODS

Raspberry Jelly
Ingredients: Water, Sugar, Raspberry, Pectin
Fairy Berry Farms
1234 Main Street
Smithers, BC V0J 2N0
